2016		Kalyan Sardar	59.75

Strategies taken by the department for student progression: In order to improve student academic progression multiple measures have been taken by the department-

Healthy teacher-student interaction: A healthy teacher- students interaction has played important role in student progression. The students are constantly advised to be disciplined in their study. They were always asked to think their subject with deep passion. They were always taught to love their department with emotion and devotion.

Academic Planning: Academic planning for slow learners has been discussed in departmental committee meeting. Special emphasis was given on attendance of the students in classroom and their deep attachment in the study. Regular class tests are conducted by the teachers to improve the representation skill of the

students. More emphasis has been given on their writing skills. Repeated correction of the writings of the students by the teachers helps to improve their writing skills.

Financial Support: The department of Geography has experienced several poor and meritorious students. Sometimes the teachers of the department have come forward to help them economically to purchase books and other academic accessories. Undoubtedly, those poor students have become successful in their final results.

Interaction with senior and junior students: The department always tries to encourage the Interaction with senior and junior students. Well interaction between senior and junior students boosts up the academic environment of the department. The junior students are encouraged by the guidance of seniors or ex-students.

Advanced tools and teaching: The department is well adorned with various types of necessary advanced laboratory tools and instruments to cope up with CBCS system and new NEP. The department is facilitated with wide benches, toposheets in various numbers, different types of maps, several instruments like prismatic compass, theodolite, dumpy level, clinometer, barometer, thermometer, refractometer, pH meter, digital current meter, weighing machine, LCD. projector, scanner and printer, Brunton compass, GIS lab and so on for the better learning and acquiring knowledge. All students get equal opportunities to use the advanced tools.

Felicitation to the brilliant students: The department used to felicitate brilliant students for their academic success to encourage the academic environment of the department.

Organisation of interactive programme: The Geography department of Kultali Dr. B.R. Ambedkar College organises several quiz competitions, student seminars, poster and model exhibitions programs. Active participation in these programmes enhances their self-expression capability and confidences. The department gives them prizes to promote them for group works and also for competitive mentality.

Felicitation to the achievers of the Geography Department by Ex-Principal and other teachers
